

TAITO 2017

The Searching For Core Competence Conference on 25-26 April 2017

Taito2017 is our second conference on current teaching and learning methods in health care and social services. We bring together educators, researchers and other professionals interested in pedagogy, competence and assessment.

We welcome you to share experiences and learn in the brand new Tampere Clinical Skills Centre in the spring!

Call for papers is now open!

Oral presentations and posters are welcome on teaching and supervision methods, learning environments, development projects, trials, research, and philosophy in the fields of health care, social services and wellbeing technology.

Workshop proposals are welcome on the different ways to implement functional learning. Several clinical skills and simulation rooms are available.

Submit your proposal at taito2017.fi.

Deadline for abstracts is on 15 January 2017. Information on acceptance of abstracts will be sent on 13 February 2017.

Write a publication It is possible to submit the conference presentation as a full paper later to be included in a publication with an ISBN/ISNN number.

Conference programme consists of inspiring keynote addresses, theme sessions and workshops. The final conference programme will be finished in February. Read more at taito2017.fi.

Register now for the early bird prices! A lunch buffet and coffee for both days and an evening event are included in the registration fee.

– €290 (+24% VAT) for presenters and conference guests

– €220 (+24% VAT) for members of the organizations in charge of the event (TAMK, TaY, TTY, PSHP, Pohjois-Hämeen Sairaanhoidaja ry), visitors taking part in TAMK's international week and students with a valid student card (Members of the international week can also ask one day participation)

Early bird prices for registration are valid until 3 March 2017. Registration and further information at taito2017.fi.

The conference is organised by TAMK's School of Health Care and Social Services and School of Vocational Teacher Education, UTA's School of Medicine and School of Health Sciences, TUT, Pirkanmaa Hospital District, Tredu, Pohjois-Hämeen sairaanhoitajat ry, and Tampere Clinical Skills Centre.
